

HOW TO BECOME A WYOMING WOMAN ELECTRICIAN WEBINAR

March is Women's History month and what better way to celebrate than by learning how to become an electrician and make your own history! We are looking for women to join the WEJATC Apprenticeship Class of 2028 because women make great electricians, too!

Our program provides a livable and equal pay wage, plus health and welfare benefits unmatched by most employment situations in Wyoming.

Becoming an electrician can open up so many economic opportunities for women (*and men, too*) to live and support their families right in Wyoming!

If you or someone you know is interested in learning more about our training program and hear from women currently working in the industry, please encourage them to attend our FREE 30-minute informational webinar.
